Experience

AWS & Cloud Computing Summer Trainee

Jun 2026 – Aug 2026

GRAS^{tech} (Learnovate)

- Completed a 90-hour project-based training on AWS & Cloud Computing, with hands-on exposure to compute, storage, and IAM fundamentals.
- Applied cloud concepts to a guided project; earned an ISO 9001:2015-certified Certificate of Completion under the AWS Partner Network.

Projects

RenewVault: Full-Stack Subscription & Renewal Tracker

2026

Tools: Next.js 16, React 19, TypeScript, PostgreSQL, Prisma, Auth.js/NextAuth v5, Tailwind CSS v4, Resend

- Co-built a live subscription dashboard with a multi-currency spending summary (INR, USD, EUR, GBP), filterable and sortable renewal lists, and live per-status counts.
- Built the mobile-first navigation (top bar, bottom tab bar, collapsible desktop sidebar) and a token-driven design system using CSS custom properties.
- Defined shared REST API contracts and the Prisma/PostgreSQL schema with a backend teammate; automated renewal-reminder emails via Resend and cron jobs.

Wanderly: Full-Stack Rental Listing Platform

2025

Tools: Node.js, Express.js, MongoDB, EJS, Passport.js, Cloudinary, Mapbox GL JS

- Built an Airbnb-style rental platform on an MVC architecture with full CRUD for listings, reviews, and user accounts.
- Secured user workflows with Passport.js session-based authentication; integrated Cloudinary image uploads and Mapbox geocoding.
- Enforced server-side validation with Joi and custom error-handling middleware.

Weather App: Real-Time Weather Dashboard

2024

Tools: React.js (Vite), Material UI, REST API

- Built a responsive weather app fetching live conditions via REST API, using modular MUI components for clean state management.

Technical Skills

- Languages:** C++, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- Web Technologies:** React.js, Next.js, Node.js, Express.js, Tailwind CSS, Material UI, Bootstrap, Vite
- Databases & Auth:** PostgreSQL, MongoDB, MySQL, Prisma, NextAuth v5, Passport.js, REST APIs
- Cloud & Tools:** AWS (EC2, S3, IAM), Vercel, Cloudinary, Git, GitHub, Postman, VS Code

Certifications

1. Delta (Full Stack Web Development)

Apna College

2. Data Structures & Algorithms in C++

Apna College

3. AWS & Cloud Computing

GRAS^{tech} (Learnovate) · Cert. No. GRAS/PBT/AWS/001

Achievements

- Solved 300+ DSA problems in C++ on LeetCode (137 Easy, 152 Medium, 12 Hard); contest rating 1510 across 3 contests.
- Maintained a 70-day maximum streak with 169 active days and earned the LeetCode 100 Days Badge 2026.

Education

Babu Banarasi Das Northern India Institute of Technology, Lucknow

Expected 2027

B.Tech in Computer Science & Engineering
